Threat Modeling Report

Generated: 2026-05-25T12:47:48+00:00
Tool Version: 0.1.0
Provider/Model: gemini / gemini-3.1-pro-preview

IaC Inputs

- `tests/fixtures/acse/acse_030/main.tf`

Design Documents

- `tests/fixtures/acse/acse_030/design.md`

Executive Summary

Total Threats: 27
Discrepancies Flagged: 6
Severity Breakdown
- Critical: 7
- High: 14
- Medium: 5
- Low: 1
- Unspecified: 0

Threat Table

ID | STRIDE | Component | Severity | Discrepancy

T-001 | Information Disclosure | aws_s3_bucket.aws-s3-emailarchivebucket | [Critical] | No
T-002 | Tampering | aws_s3_bucket.aws-s3-emailarchivebucket | [High] | No
T-003 | Denial of Service | aws_s3_bucket.aws-s3-emailarchivebucket | [Low] | No
T-004 | Spoofing | aws_db_instance.aws-dynamodb-metricsstore | [High] | Yes
T-005 | Information Disclosure | aws_db_instance.aws-dynamodb-metricsstore | [High] | No
T-006 | Tampering | aws_db_instance.aws-dynamodb-metricsstore | [Medium] | No
T-007 | Elevation of Privilege | aws_resource.aws-elasticbeanstalk-adminpanel | [Critical] | No
T-008 | Spoofing | aws_resource.aws-elasticbeanstalk-adminpanel | [Critical] | No
T-009 | Denial of Service | aws_resource.aws-elasticbeanstalk-adminpanel | [Medium] | No
T-010 | Information Disclosure | aws_resource.aws-elasticbeanstalk-adminpanel | [High] | Yes
T-011 | Elevation of Privilege | aws_lambda_function.aws-lambda-emailprocessor | [Critical] | No
T-015 | Denial of Service | aws_lambda_function.aws-lambda-emailprocessor | [Medium] | Yes
T-013 | Information Disclosure | aws_lambda_function.aws-lambda-emailprocessor | [High] | No
T-014 | Tampering | aws_lambda_function.aws-lambda-emailprocessor | [High] | Yes
T-016 | Elevation of Privilege | aws_lambda_function.aws-lambda-notificationmanager | [High] | No
T-017 | Spoofing | aws_lambda_function.aws-lambda-notificationmanager | [High] | No
T-018 | Denial of Service | aws_lambda_function.aws-lambda-notificationmanager | [Medium] | Yes
T-019 | Information Disclosure | aws_resource.aws-sqs-emailqueue | [High] | No
T-020 | Spoofing | aws_resource.aws-sqs-emailqueue | [Critical] | No
T-021 | Denial of Service | aws_resource.aws-sqs-emailqueue | [High] | Yes
T-022 | Elevation of Privilege | aws_resource.aws-sqs-emailqueue | [Critical] | No
T-023 | Spoofing | aws_resource.aws-ses | [High] | No
T-024 | Denial of Service | aws_resource.aws-ses | [High] | No
T-025 | Information Disclosure | aws_resource.aws-ses | [High] | No
T-026 | Spoofing | aws_route53_zone.aws-route53 | [Medium] | No
T-027 | Tampering | aws_route53_zone.aws-route53 | [Critical] | No

`T-028 | Spoofing | aws_resource.aws-acm | [High] | No`

Discrepancy Details

`T-004 | Spoofing | aws_db_instance.aws-dynamodb-metricsstore`
Design specifies DynamoDB (’Metrics Store’), but IaC provisions an aws_db_instance (RDS).

`T-010 | Information Disclosure | aws_resource.aws-elasticbeanstalk-adminpanel`
Design specifies a ’Load Balancer’ (ELB) routing traffic, but it is missing from the IaC summary.

`T-015 | Denial of Service | aws_lambda_function.aws-lambda-emailprocessor`
Design specifies an ’Email Events Stream’ (Kinesis), but it is missing from the IaC summary.

`T-014 | Tampering | aws_lambda_function.aws-lambda-emailprocessor`
Design specifies an ’Email Templates’ S3 bucket, but it is missing from the IaC summary.

`T-018 | Denial of Service | aws_lambda_function.aws-lambda-notificationmanager`
Design specifies a ’Notifications’ SNS topic, but it is missing from the IaC summary.

`T-021 | Denial of Service | aws_resource.aws-sqs-emailqueue`
Design specifies a ’Dead Letter Queue’ for failed processing, but it is missing from the IaC summary.
